TWO WAYS.

Senator Plumb, of Kansas, who was recently re-elected, has exploded the partisan cry of the present Administration, that the surplus in the Treasury could not be used to advantage, by calling for a detailed statement of all bond purchases made since March 4, 1885, and also for all offers to sell bonds which were rejected since that date.

In response to the resolution offered by Senator Plumb, the Secretary of the Treasury has sent to the Senate a statement showing purchases of four and one-half per cent bonds, during Mr. Cleveland's Administration, of \$128,185,750, and of offers to sell the same class of bonds during the same time, which were rejected, to have been \$245,908,200, or more than double the amount of surplus in the Treasury at any time.

Gen. Harrison said, "Use the surplus to buy Government bonds. Mr. Cleveland and his free trade advisers said, 'Keep it in the treasury and certain national banks, without interest, for the good of our party. The people endorsed the plan of President-elect Harrison."

WEST VIRGINIA.

Papers Prepared to Call an Extra Session of the Legislature.

CHARLESTON, (W. Va.), Feb. 19th.—Only five days of the legislative session are left, and what remains to be done cannot be foretold. Governor Wilson, it is said, has the papers prepared to call an extra session on February 23d, the day after the expiration of the present session.

Solicitor-General Jenks, of the Department of Justice, has completed the brief for the United States in the case of Chae Ching Ping vs. the United States. The brief first gives the statement of facts and then the argument, the gist of which is: "If Chae Ching Ping claims that he has exceptional privileges which other Chinese laborers have not who had not been residents of the United States before the passage of the Act, the reply is that he held his exceptional privileges only by virtue of the laws which then existed, but which have since been repealed, and as there is no law extending him these privileges the privileges died with the law. The law gave him the privilege and the law has taken it away, and he has no rights greater than any other non-resident of the same class."

George M. Pullman has secured a monopoly of the sleeping car service of both classes of travel on the entire system of transcontinental railroads, and he has closed a contract with the Union Pacific for managing the second class sleeping car service of that line in connection with the Central Pacific. The Pullman Company has already made a contract with the Atchison, Topeka and Santa Fe road, which also covers the Southern Pacific from San Francisco to Mojave, and it has also placed the Northern Pacific on the list. It will establish a uniform second-class rate of \$3 for the trip between San Francisco and the Missouri river. The rate between Chicago and San Francisco will be \$4.

On the morning of April 30, 1889, at 9 o'clock, it has been arranged that the church bells all over the country shall ring to celebrate the event of 100 years ago, when the church bells throughout the thirteen States rang out to call the people together to pray for the success and prosperity of the country under General Washington, that day inaugurated the first President of the United States. It would be most appropriate, thereby reminding all the people of the centennial of the great event, even if no other memorial services of any kind are held. Ring out the bells!

A writer in the New York Tribune notes it as an interesting fact that no really great hymn is so common. The masterpieces of George Wesley could be used in the services of the Roman Catholic Church, just as some of Father's beautiful hymns are used in Protestant churches. Churches may anathematize each other in their prayers, but in their hymns they can all unite, and forget for a time the party walls of opinion and prejudice that separate them.

John C. New, in one respect, somewhat resembles Joey Bagstock—he is shy. He is in New York, and when hard pressed by seekers for "inside" Cabinet information quietly refers anxious inquirers to Russell B. Harrison.

Mrs. Moreley, the wife of an English army officer, and a former American, has been creating a sensation at Monte Carlo this season by her reckless play. Two weeks ago she lost \$50,000 at one sitting.

MR. LINCOLN'S MEMORY FOR FRIENDS.

A Hitherto Unpublished Anecdote of the Martyred President's Kindness.

SHELLEVILLE, Ill., Feb. 10.—Stories are always in order about Abraham Lincoln, more especially at this season of the year when his birthday anniversary is near. The one which follows has never before appeared in print:

In the early fifties, when the marvelous future of Mr. Lincoln was perhaps as little dreamed of by himself as anticipated by his friends, he practiced law in the courts here. The late Gen. Wm. F. Thornton was perhaps the most widely known and influential man in Central Illinois. He was a Kentuckian of the old-fashioned, hospitable sort, and from time to time all the celebrities of that day were entertained at the Thornton mansion, among them Mr. Lincoln and his great opponent, Mr. Douglas. Judge Anthony Thornton, a nephew of the General, often met Mr. Lincoln there, and, although politically opposed to him, was a great admirer of him personally, and became intimate with him.

One of Gen. Thornton's daughters married a Texas planter named Marshall Bayne, and when the war between the North and South occurred two of the latter's sons (N. F. and N. W. Bayne) espoused the cause of their section and went into the Confederate army. In the latter part of 1863 both of the boys were captured by the Federals and sent North as prisoners of war. Out of money and scant of clothing the two left the rigors of a Northern climate, and communicated with their grandfather asking him for assistance, which he was anxious to render. But it happened that about the time Secretary Stanton, owing to like measures on the part of the rebel authorities, had issued stringent orders in regard to granting special favors to the men in gray. Judge Thornton had long been acquainted with Mr. Usher, Mr. Lincoln's Secretary of the Interior, but he had little faith in being more successful than others who had tried and failed to get favors of this character. He wrote to Secretary Usher and asked that one of the General's two sons—Tom or Will—might be permitted to visit their cousins and give them such help as was deemed necessary and right.

The letter was received by the Secretary just as he was on the point of attending a meeting of the Cabinet. At the close of the conference Secretary Usher took the letter from his pocket and made known its contents to Secretary Stanton, naming the Thorntons. President Lincoln, who still sat at the table, overheard the conversation between the two and quietly asked for a "Will or Tom Thornton, of Illinois," repeated the Secretary.

Addressing himself to the stern Secretary of War Mr. Lincoln said: "Mr. Stanton, you need give yourself no trouble in regard to this matter; I will settle it," and, turning to Usher, he continued: "I knew those boys when they were not more than knee-high." Then turning to the table he picked up a blank card and wrote something like this: "To the Commander of any Military Prison to whom this may be presented: Permit the bearer, Tom or Will Thornton, to visit any military station in the United States and do for his friends whatever his good judgment may dictate. A. LINCOLN."

Handing this to the Secretary he said: "Send this to Judge Thornton with my compliments."

A few days later the Bayne boys were visited and their wants supplied so far as money would do it, and from that day until his death Gen. Thornton would brook no criticism in his presence of Mr. Lincoln or his policy.

UNION PACIFIC'S ROUTE.

A Valuable Map of this Country—The Middle Route.

The Austin Reveille, of the 13th, has this:

One of our prominent citizens tells us that when J. Q. Barow was here he saw Lee and Maxwell's map of the present route laid out in exact measurements as to the height of our mountain ranges and distance of the natural springs and water courses along the route. The route passed Austin by the Yukle Blade pass towards Eureka, striking near that latter place, between the town and Mount Hope Mining District. It goes westward by New Pass, along the Carson sink to Big town and then over the Sierras by the Beckwith Pass. Our citizens can remember well when Lee and Maxwell were here in the Spring with Sheriff Sweeney, of Eureka, who furnished teams and men to the party. They were then on a reconnaissance of the Union Pacific Railroad, to determine the best way for a route through the section of country, and by their map and selection the present parties are following through the hills. Mr. Barlow has gone as far as the Sierras along this proposed route and taken notes, to not be seen report at headquarters in Ogden.

It will take by April to get in all the data, and then we will soon be able to find out what the Union Pacific is going to do about getting a route to the Pacific Coast.

In the survey so far, the grade to New Pass is not near as heavy as anticipated, which is another factor in our favor, and throwing the grade limit within bounds. This line or middle route has more feeders, a railroad in it, and larger land resources than that of the north and south routes, which again is another improvement over other proposed routes. Should the Union Pacific come this way, this whole country will raise in the estimation of capitalists many fold, and will make mining property valuable.

Nothing's party will be here about a week surveying the grade by Yankee Blade Pass and then back again, and will then break up camp and continue eastward till they meet the party surveying the line near Eureka. Of course our valleys and ranges of mountains by running north and south make the route a little difficult, but yet on account of our low passes, this disadvantage is more than offset, in that this route has not near the grade in the approach to the Sierras as one further south.

DONT SHOCK 'EM.

The Carson Appeal looks at it through its green glasses and says:

We think it would be a great mistake for the present Legislature to encourage anything like gambling in Reno after the decided stand taken by that highly principled community against gambling at the recent election.

The Reno Fair always brings together a bad crowd of gamblers at the racetrack, and faro, chuckluck, roulette, top and bottom, and all the games of chance, straddle and skin, reign supreme during the week of the Fair—we mean the race.

This is a box of the demoralizing gambling element is a very obnoxious to the moral sense of Washoe who has emphatically set its face against it at the polls.

An appropriation of \$25,000 to keep up this index of the gambling element would be a simply an insult at the present time, and we trust the Legislature will not make the mistake of encouraging the evil.

If an appropriation is made, a bill to prevent gambling at the Fair should be promptly passed. Reno, however, likes all kinds of gambling games that pay a license to Washoe county, but it is its moral conscience strongly against any gambling proposition that proposes to pay a license to the State of Nevada.

Another Novelty in Slang.

The "chestnut," as a slang phrase, is done with, from-bitten, quite, and an equally meaningless word has been substituted. It is "dusky." Do you admire anything from a stylish toilet to a dainty dish, you are privileged to say, "there is nothing 'dusky' about that." On the whole, when one takes time to consider, there is more sense in "dusky" than in most fashionable slang. A dusky object suggests one whose freshness is spoiled. Just how the "chestnut" was ever significant, no one has yet clearly defined—January Table Talk.

Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. 10 slate or clinkers. One ton P. A club of twenty Baltimore damsels is going to "do" Europe this Summer without relatives or chaperons. As they are all good French and German scholars, have well filled pocketbooks and lots of independence, their trip will probably be a success. On their return they will write and publish a book of twenty chapters—one by each member—describing of their travels and their opinion of European life. If they pass through Reno they will stop at the Palace and eat a good square meal.

Many San Joaquin Valley farmers are not satisfied with the fence law. These they procure from the railroad company at or near the nearest station. About a foot is cut off one end of the wire and then it is split in two. This costs the farmer 12 1/2 cents at the railroad. This makes his fence posts cost him 6 1/2 cents each, as nearly every wire may be split into two good posts. Economy being the order of the day, those who indulge in something for the inner man should call on Geo. Becker at the Granite.

VERDI MILL CO.

The New Plant Ready For Business.

The box department of the Verdi Mill Co. will be started up this week, and in a few days the entire works will be in operation. The new mill and machinery is the prettiest plant in Nevada, and can not be surpassed on the Coast. The machinery is all of the latest improved pattern, and run by a 40-inch L. Mol wheel, propelled by water power furnished by the Essex Ice Co. The Mill Co. is an incorporation with a capital of \$40,000, and the principal stockholders are O. Lonkey, C. C. Powning, J. P. Foulke and J. F. Condon. O. Loukey is President, J. F. Condon, Manager, and the Trustees are O. Lonkey, C. C. Powning and J. F. Condon. The Co. will buy and sell lumber, manufacture doors, sash, blinds, boxes, and generally supply all kinds of material for building purposes. Forty men will be employed, and the work turned out will be as good, if not better, than any planing mill or box factory on the Coast. It is the intention to run the mill day and night, so that all orders may be executed promptly. As this is the only mill in Nevada it confidently expects to do the business of this section.

The Sawdust Bill.

Advices from Sacramento state that what is known as the "sawdust bill" has been reported back to the Assembly by the Fish and Game Committee with a recommendation that it do pass as amended by the committee. The amendment consists in adding another section to the bill as follows:

Sec. 2. This Act shall take effect on and after the 1st day of September, 1899.

The amendment is very essential as it will give the millmen a chance to adopt a means of disposing of the sawdust without having to close down their mills. The bill will probably pass as amended.

Carson's Sewerage.

The Carson Tribune says: It is high time that the sewerage of Carson City was paid some attention to, for with all the excellent facilities for draining the town there is no place in the whole State in so fearful a condition as regards sewerage. If the State cannot afford us help and the county finances are so low an abatement can afford no help, let property owners and business men meet and devise some method for the stagnant and filthy pools that so infest our beautiful town. If no aid can otherwise be obtained let a subscription be started for drainage purposes and not a man in town would refuse to aid as far as his means permitted. Sewerage we must have or the town will soon become uninhabitable.

An Incest Section.

Elko is becoming bad. The Free Press says: There is a rumor that the present Grand Jury will be called upon to investigate another case somewhat similar to the Streeter case. The neighbors have talked about it for the past year or two, and the presence of several of them in town lend color to the rumor. There are several cases of supposed incest in this county, and parties who know or suspect the fact, should take measures to either bring the culprits to justice or clear innocent persons from the suspicions that their neighbors now have against them.

Humboldt Election Expenses.

The Silver State remarks: The Board of County Commissioners passed upon all the bills incurred by the special election, such as sheriff's fees and mileage, printing, purchase of tickets and clerical expenses, and the State Controller that the expenses of said election amounted to \$1,905.30. Humboldt is a county of magnitude and it is not surprising that the bill for the election of the County seat amount to considerable.

High Priced Votes.

The Silver State says: At Pleasant Valley five votes were polled at the special election, and the pay of election officers and mileage of messenger amounted to \$84.20. A little Humboldt there were six votes cast and the expenses amounted to \$95. The votes in these precincts cost the State over \$40 each.

Called to Settle.

The Elko Independent reports this novel bet:

A few days before the last Presidential election, Ed. Kelly, of Halleck, was in the Independent office, and made a bet or agreement with the employee of the office, to the effect that should Cleveland be elected President, then the entire force, foreman, compositors and devil, should have the privilege of kicking Kelly around the back yard of the office for the space of twenty minutes not in case of the election of Harrison, Kelly was to become the kicker.

Mr. Kelly called in this morning to settle the bet, but as his arrival in town was known, a strict watch was kept by the boys, and upon his approach they took what they call a legal holiday and retired by a rear door and over the back fence.

Mr. Kelly offered to discount the debt one-half if this writer would accept payment upon behalf of the absent members, but the offer was declined with thanks.

Here to Purchase Sheep.

The Reveille says A. D. and R. C. Best are at Austin from Knights Ferry, Stanislaus Co., Cal. with the intention of purchasing 8,000 sheep (wethers) for shipment to their ranch. They have already seen George Watt, Patrick Martin, Robert Hogan, L. Steiner and others, and are now awaiting an answer from Warren Williams and Senator C. Kaiser, of Churchill, about how many they have for sale. Both are staying at the International.

The Lyon County Times says:

The people have and they do not want gambling in the State of Nevada. Now let us see if they mean it, and will call upon their representatives in Carson to abolish all chances of gambling. There is a law against selling lottery tickets or raffish tickets of any description in this State. Let us see how strictly this law will be enforced, and let us prohibit gambling of any kind in our moral little State. If it cannot all be done at once, make a start at this session, at least.

Advice to Mothers.

Are you distressed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children's Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children's Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. 'Feb. 21-wr-f-1

What Am I to Do?

The symptoms of biliousness are unhappily but too well-known. They differ in different individuals to some extent. A bilious man is seldom a breakfast eater. Too frequently, also, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred it is rough at all events.

The digestive system is wholly out of order and diarrhea or constipation may be a symptom or the two may alternate. There are often hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try Green's August Flower, it costs but a trifle and thousands attest its efficiency.

SACRAMENTO, CAL.

THE OLD RELIABLE FURNITURE HOUSE OF John Breuner is well worthy of note, and we take pleasure in devoting to it due space and attention. Mr. Breuner has been engaged in this business for thirty-three years and conducts one of the largest business houses in California. He manufactures and deals in all kinds of furniture and bedding, and has established a most enviable celebrity for the excellence of the goods turned out by his house. He carries a very large stock, embracing all grades and kinds of furniture and quotes prices that defy competition. His goods are all first-class, made of the best material and first-class workmanship, and the people cannot find a more advantageous house to deal with. He carries a supply of photographs of all goods, which will be sent free of charges to any address, and by this method people at a distance can select goods at home as well as in person at his house, and may rest assured of being satisfactorily and fairly treated by him. This is a most convenient and pleasant method for those abroad, and we recommend a trial of it.

250 Beautiful Lots For Sale!
A RARE CHANCE FOR INVESTMENT AND A HOME
THE MOST LOVELY PORTION OF RENO.

**Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Lo-
cation and Safe From Fire.**

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of
the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west
at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the
rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River
and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide,
while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil
is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from
fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established. Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette. Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition. The State Fair is always held at Reno. Reno is the County Seat of Washoe County, the wealthiest county in Nevada.	 RENO! Has 5,000 Population and is Growing Rapidly. The Loveliest Town! The Cleanest Town! The Wealthiest Town! The Healthiest Town!	RENO Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule. Facilities for irrigating surpass any in the State, and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools. The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.	 RENO! Is the Railroad Center of Nevada. RENO Is the Educational Center of Nevada. RENO Is the Healthiest Town in Nevada. RENO Is Great, and Alfalfa is King. RENO The Safest Investment IN THE STATE RENO PROPERTY Is the Cheapest on the Coast in comparison with that of other cities.
RENO Is Supported by the Richest Farming Country of Nevada, Northern California and Southern Oregon.
